

## Residential HVAC Technician

Are you an experienced HVAC service technician looking for stable work with a rapidly growing plumbing, heating and air conditioning business? How about supportive management and opportunity for growth? We're immediately seeking qualified, experienced HVAC technicians to help serve our valued customers. This position is ideal for someone who has verifiable residential experience in a dynamic atmosphere and who is seeking long term employment.

We're happy to offer a comprehensive benefits package that includes:

- Great pay
- Paid training
- Health Insurance
- Paid vacation
- 401K

Daily job duties will include arriving promptly at a customer's home and performing heating and air conditioning services ranging from simple gas boiler repairs to diagnosing no heat/no cooling complaints to replacements for residential customers.

The Ideal Candidate has/is:

Excellent verbal and written communication, multi-tasking, organizational and time management skills.

Experience working with a diverse residential customer base. If you're eager to start a new career with a company who will value you, please contact us to apply for immediate consideration.

Background and Drug Screening will be done before an offer is made.
